

AFRIPALLET CAPE TOWN CC

CERTIFICATE

All timber used in the production of pallets in our factory is South African Pine sourced from plantations that are managed in an environmentally friendly and sustainable manner.

Afripallet is actively involved in both the supply of components utilized in the repair of damaged pallets, bins and crates as well as conducting repairs.

All export pallets are heat treated in our factory to ISPM 15 standard. This is an internationally recognized standard for the treatment of timber in the global market.

Our ISPM 15 registration mark is ZA-A42.
