## **CERTIFICATE OF CONFORMANCE** **FOOD CONTACT**

### **UVASYS SULPHUR DIOXIDE PADS USED FOR POST HARVEST STORAGE OF TABLE GRAPES**

UVASYS SO<sub>2</sub> Pads are safe for food contact and comply with the following EU Directives and regulations

- **Regulation (EC) Nr 1333/2008** which amends **Directive 95/2EC** on food additives other than colours and sweeteners, and authorizes the use of SO<sub>2</sub> Pads in the EU on Table Grapes and Lychees. The correct usage of UVASYS SO<sub>2</sub> Pads will not lead to Sulphite residues on Table Grapes greater than 10 ppm.
- **Directive 2008/84/EC**: The Active Ingredient Sodium Metabisulphite (E223), used in the manufacture of Uvasys, complies with the purity criteria on food additives other than colours and sweeteners set out in this directive.
- The rules of **Regulation (EC) No 1935/2004** of the European Parliament on materials and articles intended to come into contact with food.
- The EU labeling provisions set out in **Regulation (EC) Nr 1333/2008**
- **Directive 94/62/EC** on packaging and packaging waste, regarding the presence of heavy metals (lead, cadmium, mercury and hexavalent chromium) in packaging materials.

The Raw Materials used in the manufacture of Uvasys Grape Guards are approved for contact with Foodstuffs and have the relevant FDA approvals. Uvasys is registered with the U.S. Environmental Agency (EPA) for postharvest use on Table Grapes, EPA Reg. No. 68506-2, Californian EPA Reg. No. 68506-2-AA as well as with the Australian Pesticides and Veterinary Medicines Authority (APVMA Product No 52162).
