

Training for your future

Kaap Agri Academy Farmworker Training Programme 2019

The Kaap Agri Academy provides quality training to emerging farmers and farmworkers, with the aim of increasing knowledge, skills and productivity. Training enables farmers to improve their enterprise's ability to grow and to become more competitive. Our training content is developed specifically for South African agricultural conditions and the courses as well as the training providers are accredited by AgriSETA.

Tractor Maintenance

Learn about tractor maintenance, how to do a pre-drive inspection, operate the controls, and solve common problems.

R1 800 pp • 4-Day course

Front-end Loader and Digger Loader

At the end of the course learners will be able to drive and operate loaders, have a basic knowledge of the functions of the machine, and trace and solve general problems.

R1 800 pp • 5-Day course

Spray-pump Operation

The course covers the operation of this commonly used piece of equipment and understanding its functions.

R1 800 pp • 2-Day course

Forklifts

Forklifts are powerful machines that can improve productivity immensely. By learning how to operate it properly, and how to transport various types of freight, learners can reduce, or even prevent, accidents from happening on site.

Refresher training: R850 pp • 1-Day course
New: R1 400 pp • 3-Day course

Handling of Chemical Agents

The ground rules for ensuring the safe handling and storage of chemical agents are covered.

R700 pp • 1-Day course

Welding

Learners get a basic knowledge of the equipment and metals used. The course also covers various welding techniques and safety training to help learners produce high quality welding.

R3 300 pp • 5-Day course (Only 4 learners per course.)

Orchard Monitoring

Learn how to control insects and pests in orchards and vineyards.

R1 700 pp • 2-Day course

First Aid

Learners will find these two practical training courses ideal for dealing with common emergencies that may require first aid treatment.

R1 000 pp Level 1 • 2-Day course
R1 300 pp Level 2 • 3-Day course

Firefighting

The course covers basic firefighting techniques and the use of fire extinguishers. Learners also learn about the various causes of fires on farms and the usefulness of fire breaks.

R700 pp • 1-Day course

Safety Representative

This course develops a better understanding of what is required of Health and Safety Representatives and Supervisors at the time of an incident.

R700 pp • 1-Day course

Supervision

The course is ideal for new supervisors or those that require basic training in management principles, planning, organising and problem solving.

R3 000 pp • 4-Day course
