

## PRODUCT DESCRIPTION

**Product:** Angleboard  
**Mill of Origin:** Springs Mill  
**ISO Certification:** 9001 & 14001  
**Product Classification:** Industrial - Packing  
**Fibre Sources:** 100% Recovered Fibre

**Product Description:**

Angleboard is an industrial grade board produced for the agricultural industry. The product is converted into specific angleboards (corner pieces) used as support structures for pallets and packing with strapping. It is made from 100% recovered fibre.

**Qualities:**

- The product is 100% repulpable, thus supporting the cradle-to-cradle life cycle concept.
- It meets the FSC® (FSC-C004834) Mix Chain-of-Custody certification requirements.

**Best suited for:**

- Angleboards used in packaging for the agricultural industry.

**Typical Values (Period: July – December 2017):**

Parameter	Test Method	Unit of Measure	Typical Value
