Certificate of Compliance

To whom this may Concern:

This is to confirm that our Bubble Wrap is made with 100% pure virgin LLDPE as stipulated by the food safety regulations.

This material complies with F&DA regulation 177.1520 when used unmodified and according to good manufacturing practices for food contact applications. Accordingly, this material may be used in all food contact applications [except holding food during cooking]

Air Wrap does not manufacture any products that are in contravention to the F&DA regulations.

No food additives are used during manufacturing.

Food additives are defined by Codex Alimentarius as any substance not normally consumed as a food by itself, and not normally used as a typical ingredient of the food, whether or not it has nutritional value, the intentional addition of which to food for a technological (or organoleptic) purpose in the manufacture, processing, preparation, treatment, packing, packaging, transport, or holding of such food results, or may reasonably be expected to result (directly or indirectly), in it or its by products becoming a component or otherwise affecting the characteristics of such foods. The term does not include contaminants or substances added to food for maintaining or improving nutritional qualities.
