

# PERFORMANCE COLOUR SYSTEMS

## MASTERBATCH CODE: MB017

The Masterbatch indicated above, produced by Performance Colour Systems, meets the specifications for international food contact regulations:

**EC:** Polymers and waxes are listed without restriction in Directive:  
Commission Regulation (EU) No. 10/2011 (previously Directive 2002/72/EC and amendments.)

Certain additives, which are not added intentionally by Performance Colour Systems but are trace elements as a result from the specific characteristics of the raw materials used in the manufacture of this Masterbatch, are listed with some restrictions in the temporary list of authorized additives in Commission Regulation (EU) No. 10/2011 (previously Directive 2002/72/EC and amendments.)

The pigments contained in this Masterbatch meet the specifications for the purity requirements of EC Resolution AP (89)1.

**EU:** As the above raw materials in the manufacture of this Masterbatch are listed in the above EU lists of polymers and additives they are also in compliance with the respective transposition of the 2002/72/EC and amendments (now Commission Regulation (EU) No. 10/2011).

It is the responsibility of the manufacturer of the finished food contact article to conduct any necessary testing to ensure compliance of the finished article to any specific or overall migration requirements. We recommend you consult the applicable regulations for complete details.

Due to changes made in the laws, customers should verify regulatory status annually.
